

Dear Worldbuddy #8

Communities in New Zealand have things like schools, shops, playgrounds, hospitals and libraries. Water comes to our homes through pipes and electricity through wires. There are lots of things we have in the place where we live that we take for granted. Some children in the world grow up in places where they don't have these things. For these children it can be much harder to go to school, get clean water or go to the doctor.

Write a letter to your Worldbuddy and describe your community and ask them about theirs.

Use the letter outline to the right to get started. You might want to come up with some of your own questions to ask.

Remember to:

- Use the page in your sponsorship pack with your Worldbuddy's picture on it to:
 - Write your sponsored child's full name and reference number on the top of your letter and on the back of the envelope.
 - Address the envelope to the World Vision office for the country your sponsored child lives in.
- NEVER** write your personal address details on the letter itself.

Child's reference #:
Child's name:
Date:

Dear:

In my community we have: (describe the places in your community that you use and which are important to you such as the library, school, health centre or shops).

Tell me about the things in your community that are important to you. Do you have a school, health centre or shops?

[Write your own message to your Worldbuddy]
